THE EQUIPMENT

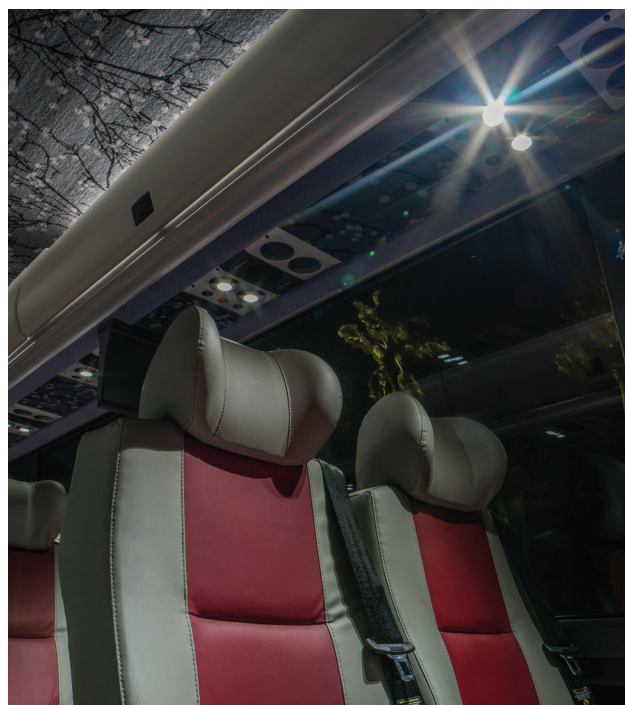

Our equipment is one of the cornerstones of our company. We believe that in order to be First Class, it's imperative to operate a fleet of First Class equipment. We continue to make investments in our coaches to ensure that we operate the best fleet in the region.

FULL-SIZE LUXURY COACHES

36-57 Passenger Luxury Coaches

These coaches are the backbone of our fleet. We currently run a fleet of around 68 full-size coaches. An average fleet age of less than 6 years.

First Class Luxury

Luxury starts with the coach, and we know that no amount of quality service will make up for bad equipment. We pride ourselves on our fleet---not just because many of our coaches are newer models, but also because we prioritize maintenance and cleanliness, and offer convenient amenities for our passengers.
